APPLICATION DEADLINE

Community Development Block Grant PY 2022

The Community Development Block Grant (CDBG) Program provides annual funding on a formula basis to entitled cities and counties to develop viable urban communities. The program's principal beneficiaries are low-income households. The goals of the program are to provide decent, safe, and sanitary housing, provide a suitable living environment and to expand economic opportunities.

Activities that receive CDBG funding must be both eligible within the program regulations published in the Code of Federal Regulations as 24 CFR Part 570 and meet one of the three National Objectives of the program as established by congress: (1) activities must provide a benefit to low and moderate income persons, (2) prevent or eliminate slum and blight; or (3) meet an urgent community need that threatens the health or welfare of residents.

CDBG Basic Eligible Activities (24 CFR 570.201 Basic Eligible Activities) LINK: https://www.hud.gov/sites/documents/DOC_17133.PDF

The following are all the activities that are currently eligible provided such an activity meets a national objective of the CDBG program:

- Housing Rehabilitation
- Public Facilities and Public Improvements directly benefitting low-income persons
- Property Acquisition benefitting low-income persons
- Demolition and Clearance of blighted properties
- Historic Preservation: Residential
- Facilities or the Removal of Architectural Barriers for the elderly or handicapped adults
- Public Service projects must be either a new service or quantifiable increase in the level of service, which support the community development effort (15% cap of the City's CDBG Allocation) directly benefitting low-income persons.
- Administrative and Planning costs for CDBG program management (20% cap)
- Other projects in compliance with 24 CFR Part 570 for CDBG

See Appendix A for Descriptions of Federally Eligible Activities.

Ineligible Activities (24 CFR 570.207)

The general rule is that any activity that is not authorized under the provisions of Section 570.201-570.206 is ineligible to be assisted with CDBG funds.

The following activities may not be assisted with CDBG funds:

- Buildings or portions thereof, used for the general conduct of government
- General government expenses
- Political activities
- Acquisition of property or the construction or rehabilitation (including historic preservation and removal of architectural barriers) or structures to be used for religious purposes or which will otherwise promote religious interests

National Objectives (24 CFR 570.208)

In order to be eligible for funding, every CDBG-funded activity must qualify as meeting one of the three national objectives of the program. This requires that each activity, except Program Administration and Planning, meet specific tests for either:

A. Benefitting Low and Moderate Income (LMI) persons: Activities considered benefitting LMI persons are divided into four categories.

1. Area benefit activities meet the identified needs of LMI persons residing in an area where at least 51% of the residents are LMI persons.
2. Limited clientele activities that benefit a specific group of people (rather than all the residents in a particular area), at least 51% of whom are LMI persons.
3. Housing activities, this adds or improves permanent, residential structures, which will be occupied by LMI households upon completion.
4. Job creation or retention activities that create or retain permanent jobs, at least 51% of which are either taken by LMI persons or considered to be available to LMI persons.

B. Aiding in the Prevention or Elimination of Slums or Blight: an activity must meet ALL of the following to qualify:

1. Designated by the grantee (City of Lewiston) and meet a definition of slum, blighted, deteriorated or deteriorating area under State or local law.
2. There must be a substantial number of deteriorated or deteriorating buildings or public improvements throughout the area.
3. Documentation maintained on the boundaries of the area and the condition that qualified the area at the time of its designation.

C. Meeting Other Community Development Needs having a Particular Urgency: Because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs. (This category is rarely used).

Important Information/Items to Consider

General:

This application briefly summarizes some of the main requirements for this funding. These requirements are not all inclusive. Potential applicants should consider their capacity and program/project concept in relation to all requirements. It is an applicant's responsibility to thoroughly review all funding regulations and guidance before preparing an application for funding to ensure they have the ability to comply with all Federal requirements and funding regulations.

Note: Resources for funding information are included online at www.hudexchange.info/programs/cdbg

CAPACITY: Demonstrates the ability to carry out the proposed program activities, including 1) meeting the stated goals and objectives, 2) maintaining all required documentation, 3) submitting all required reports, 4) adhering to acceptable financial management and recordkeeping, 5) sufficient staff to administer the funding, and 6) staff trained in federal funding.

The City may request supplemental written information from an applicant concerning the applicant's ability to perform the services, or if the amount awarded is different from the amount requested. If an applicant fails to provide supplemental information within the time stated in the request, the City may refuse to consider the application.

If an applicant provides false or misleading information, it will be grounds to dismiss their application.

In cases of doubt or differences of opinion concerning the interpretation of this packet, the City reserves the exclusive right to determine the intent, purpose, and meaning of any provision in this packet.

Successful applicants must certify that they will comply with all applicable Federal regulations, State and City statutes, rules, regulations and record keeping requirements governing the use of funds. The applicant selected by the City will be required to enter into a written agreement requiring compliance with the application and any modifications and conditions imposed by the City including funding terms applicable to the program/project. If awarded funding, it is the responsibility of the applicant to understand and comply with a written agreement and federal regulations.

Funds will be available upon completion of all regulatory requirements for use of federal funds including, but not limited to, completion of a HUD Environmental Review. If awarded, funds may be reimbursed from the effective date of a contract, but will not be disbursed until the subrecipient agreement is executed by both parties.

If an acquisition and/or rehabilitation project is proposed, the applicant can have no financial or legal commitment to purchase or begin rehabilitation.

Acquisition, Rehabilitation or Construction projects cannot start until the City has conducted a HUD Environmental Review. Agencies failing to wait until the HUD environmental review is complete will forfeit the allocated funds.

DUNS Number

This is a nine-digit number in a data universal numbering system that identifies business entities on a location-specific basis. A DUNS number is mandatory to receive federal funding. If you do not have a DUNS number, you can register with Dun and Bradstreet at <http://fedgov.dnb.com/webform> (can take up to 30 days to complete) or by calling 866.705.5711 (takes 10-15 minutes to complete).

System for Award Management (SAM)

The System for Award Management (SAM) includes information regarding entities debarred, suspended, proposed for debarment, excluded or disqualified under the non-procurement common rule, or otherwise declared ineligible from receiving Federal contracts, certain subcontracts, and certain Federal assistance and benefits. In order to be eligible to receive funding, applicants must register on SAM. Registration must be renewed and revalidated at least every 12 months. To register, go to www.sam.gov and create an account by clicking the “Create User account” and follow the directions. You will need your DUNS number and about 30 minutes to complete the process. If you need help, call 1.866.606.8220. Registration is FREE!

Relocation of Occupants and URA Requirements

An acquisition or rehabilitation project may trigger Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA) requirements even when it may seem they are unrelated. It is important to have a clear understanding of these and other important terms as defined in the URA and the regulations. The phrase “program or project” is defined in 49 CFR Part 24 as “any activity or series of activities undertaken by a federal agency or with federal financial assistance received or anticipated in any phase of an undertaking in accordance with the federal funding agency guidelines.”

Generally, a displaced person under the URA is an individual, family, partnership, association, corporation, or organization, which moves from their home, business, or farm, or moves their personal property, as a direct result of acquisition, demolition or rehabilitation for a federally funded project. Displaced persons are eligible for relocation assistance under the URA.

The URA regulations require three notices to be issued to eligible persons. These notices provide important information about the project, the affected persons’ resulting rights, their protections, and their eligibility for relocation assistance and payments under the URA. It is critical for agencies to issue appropriate notices to affected persons at the appropriate time and one of the first notices must be issued at the time a project application is submitted to the City of Lewiston. Refer to the Tenant Assistance, Relocation and Real Property Acquisition Handbook (HUD Handbook 1378.0) for more information on this topic. (<https://www.hudexchange.info/resource/310/hud-handbook-1378-tenant-assistance-relocation-and-real-property-acquisition/>)

Any application for HUD funds must contain an accurate determination of the number of household or businesses to be potentially displaced, their incomes, and an estimate of relocation costs associated with the project. Early in the process of project planning, relocation concerns must be explored so decisions about rents, construction timing (phasing), and project feasibility can be fully explored.

Construction Project and Federal Wage Rates

For construction projects over \$2,000, workers must be paid Federal Davis-Bacon wage rates (except housing rehab in which case eight or more units must be involved in a single undertaking). These rates are established by specific trades (examples: plumbers, electricians, carpenters, laborers, etc.) and are based on either a “residential” or “commercial” rate. Generally, these wages are higher than accepted local rates. This may increase the cost of the project since these workers must be paid Federal Davis-Bacon wages on the entire project, not just the portion funded by HUD. There is also additional record keeping requirements for the contractor and City staff must conduct site interviews with employees while the work is underway.

Lead Based Paint

For any project involving an existing residential structure that was built before 1978, the project must meet the requirements of the HUD regulation to control lead-based paint hazards in housing receiving federal assistance, 24 CFR Part 35. This regulation, effective September 15, 2000, establishes procedures for evaluating whether a lead-based paint hazard may be present, controlling or eliminating the hazard, and notifying occupants of what was found and what work was done in such housing. City staff will provide technical assistance in determining the regulations that apply and the required lead abatement process. However, the applicant is responsible for conducting all required lead-based paint abatement procedures, and should accommodate these activities in the project.

Funding Available

The 2022 CDBG Allocation for the City of Lewiston has yet to be determined by the U.S. Department of Housing and Urban Development. In the past, the City has received anywhere from \$113,000 to \$240,000.

- Approximately 20% of CDBG funds will be programmed towards CDBG Administration and Planning activities for the preparation of the City’s 2023 – 2027 Consolidated Plan.
- The remaining CDBG funds will be considered on an individual basis for other proposed projects in FY 2022.
- Owner occupied housing rehabilitation will continue to be administered through the Community Development Department’s Home Repair Program.

CDBG FUNDS WILL BE SUBJECT TO RECAPTURE IF PROJECTS ARE NOT COMPLETED WITHIN THE PRESCRIBED CONTRACT PERIOD.

Application Process

Application forms and instructions are included with these guidelines. In general, the application should describe the project need, the results anticipated, the eligibility and justification, and the quantities of results (e.g. linear feet of sidewalk replaces, number of meals provided to Senior Citizens, or number of persons benefitting from activity, etc.)

Organizations/agencies requesting funding for more than one project must submit a separate application for each project.

Eligible Applicants

Eligible recipients, known as subrecipients, include non-profit corporations, neighborhood preservation organizations, economic development agencies, and health or job development agencies.

Applications seeking CDBG funds must also submit a current Financial Audit or, if the organization receives less than a total of \$750,000 in federal funds from all sources, an Independent Accountant Statement.

If a private “nonprofit” entity or “for profit” is to be a subrecipient, the organization is responsible for the compliance of the program. In some instances, organizations may be required to provide matching funds for the amount of CDBG funds requested. Additionally, organizations will be required to submit the following documents with the application:

- Prior year financial statements
- Source of matching funds
- Program budget for CDBG assisted year (including sources of anticipated revenue)
- Detail of organized fund raising activities (if applicable)

Category Limits

The City of Lewiston, as the grantee, must certify that in the aggregate at least 70% of CDBG funds to be expended during the program year will be for activities that benefit LMI persons. This is distinct from the requirement for individual activities meeting a national objective by benefitting persons at least 51% of who are LMI and Lewiston residents. In determining the percentage of CDBG funds spent for LMI benefit activities, the costs of planning and overall program administration are excluded. The amount of CDBG funds obligated within a program year to support public service activities must not exceed 15% of the total funding awarded to the grantee (City of Lewiston) for the year and public services cap is being determined. No more than 20% of the sum of any CDBG funds plus program income that is received during the program year can be expended for planning and administrative costs.

Performance Measures

Performance measures was developed to measure performance at a state or local level. Since the City is given the flexibility to make choices about how to use program funds, it is only logical that the City be accountable, at a local level, for those choices. There are two critical components of performance measurement: (1) productivity and (2) program impact.

Productivity reflects the level of efficiency (quantity, quality and pace) with which the City undertakes its activities. Program impact, on the other hand, reflects the extent to which those activities yield the desired outcomes in the community or in the lives of persons assisted.

Goals

The proposed activity meets which of the following goals (select only one):

Goal #1 – Creates a suitable living environment

This objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environment (such as poor quality infrastructure) to social issues such as crime prevention, literacy or elderly health services.

Goal #2 – Provides decent housing

This objective focuses on housing programs where the purpose of the program is to meet individual, family, or community needs and not programs where housing is an element of a larger effort, since such programs would be more appropriately reported under suitable living environment.

Goal #3 – Creates economic opportunities

This objective applies to the types of activities related to economic development, commercial revitalization, or job creation.

Objectives

Select the most appropriate objective for the proposed activity.

Improve availability/accessibility

This category applies to activities that make services, infrastructure, public facilities, housing or shelters available or accessible to low/moderate income persons, including persons with disabilities. In this category, accessibility does not refer only to physical barriers, but also to making the affordable basics of daily living available and accessible to low/moderate income people where they live.

Improve affordability

This category applies to activities that provide affordability in a variety of ways in the lives of low/moderate income persons. It can include the creation or maintenance of affordable housing, basic infrastructure hook-ups, or services such as transportation or day care.

Improve sustainability

This category applies to projects where the activity or activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit

to persons of low/moderate income or by removing or eliminating slums or blighted areas through multiple activities or services that sustain communities or neighborhoods.

Outcomes (Goals and Objectives of Proposed Activity)

<input type="checkbox"/> Enhance suitable living environment through new/improved accessibility	<input type="checkbox"/> Enhance suitable living environment through new/improved affordability	<input type="checkbox"/> Enhance suitable living environment through new/improved sustainability

Performance Measurement Outcome Statement

Combine the elements from the categories above to summarize why the proposed activity is needed and what outcomes will be achieved from the proposed project or program. Outcomes are the changes you expect to occur in clients' lives and/or the community as a result of the proposed activity. A complete statement includes output (quantified) + outcome (from categories above) + activity (description) + objective.

Program Guidelines

The following program guidelines will be reviewed of all applications that satisfy the federal eligibility requirements:

1. **Displacement/Relocation:** Due to the potential liability for long-term assistance, the City will make every effort to minimize permanent residential displacement. In consideration of this policy, it will be the City's general practice not to approve any proposed CDBG activities, which involve permanent relocation of tenants, businesses or owners unless circumstances warrant it.
2. **Fair Housing:** "Public Law 90-284" refers to Title VIII of the Civil Rights Act of 1968, popularly known as the Fair Housing Act. Within constitutional limitations, for fair housing throughout the United States and prohibits and person from discriminating in the sale or rental of housing, the financing of housing, or the provision of brokerage, services, including otherwise making unavailable or denying a dwelling to any person, because of race, color, religion, sex or national origin.

Title VIII further requires the Secretary of HUD to administer the programs and activities relating to housing and urban development in a manner affirmatively furthering the policies of Title VIII. Furthermore, Section 104 (b) (2) of the Act requires that each grantee (City)

receiving funds under Section 106 of the Act (entitlement or small cities grantees) certify to the satisfaction of the Secretary that it will further fair housing.

3. **Labor Standards:** All applicants must agree to include Davis Bacon or any other federally required documents in bidding documents to follow the City of Lewiston's required bidding process, if applicable.
4. **Certification:** All applicants, except in economic development cases, must verify incorporation under state law and have/or have applied for 501(c) (3) tax status.
5. **Matching Funds:** All applicants must include documentation of efforts to solicit alternative sources of funds. This is to include copies of the applicant's letters and the funding sources' responses. All applications must include documentation of any outside funding actually secured for FY 2021. Preference for funding will be given to applications demonstrating secure commitments from other funding sources.
6. **Audits:** The City of Lewiston has a program obligation to ensure that its subrecipients keep accurate records of the CDBG funds received. The manner with which this is executed varies on the amount of CDBG funds received. Subrecipient of awards over \$750,000 are expected to conduct external audits. To facilitate the administration of the City's program, there will be a uniform requirement that all agencies must complete an outside fiscal audit prior to receiving its PY 2022 CDBG funds unless an alternate arrangement has been made with the City of Lewiston's Community Development Department.
7. **Agreements:** Each subrecipient of CDBG funds must agree to sign a written agreement with the City covering, at a minimum, the following provisions: statement of work, records and reports, program income, uniform administrative requirements, suspension and termination, and reversion of assets, if any.

Cost Estimate

Applicants requesting CDBG funds are required to complete the project budget section of the application. Indicate if the project can be completed solely with Community Development funds, or if other State, Federal, or local funds will be used, and their source. This information is helpful in preventing organizations from under-estimating project costs. When preparing cost estimates, consideration should be given to prevailing wage, procurement, and other applicable regulations.

Applicants are encouraged to utilize other sources of funding, as a higher priority will be given to these projects. These other funds should be reasonably certain, in order to avoid having a project held up waiting for matching funds.

PY 2022 Program Year Timetable

The FY 2022 Program Year commences on August 1, 2022; however, funds are not anticipated to be released from the U.S. Department of Housing and Urban Development until approval of the 2022 Action Plan.

Subrecipients receiving awards may **not obligate or expend** any funds until all contract agreements are in place, fully executed and written notification from the Community Development Department is received. Failure to comply with this procedure could result in voiding your award.

If you have questions concerning the application process or funding cycles, please contact the Community Development Specialist at 208-746-1318 x 7265 for technical assistance.
